PROJECTS

1. Title   : Responsive Portfolio   1 month (2020)
Project description   : Web Project on "E-Portfolio"

A simple e-portfolio web app that highlights my knowledge on web development and examples of my work along with the usual resume information. This is project is still under development with continuous updates, but is deployed under GitHub pages.

App-demo: https://samarjeetbanik.github.io/my-portfolio/

2. Title   : GitHub Users Finder App   2.5 months (2021)
Project description   : VueJS Project on Searching GitHub users

This is a learning level project, GitHub users finder app, powered by Vue3.js and GitHub API. This app sums up all the major concepts of Vue3.js such as routing and state management, supported by Firebase for authentication purpose and is deployed under Heroku cloud hosting services.

App-demo: https://githubusersfinderapp.herokuapp.com/

3. Title   : Technical Content API   1 month (2021)
Project description   : Backend API project on technical content DB

A sample API project, made up of Node.Js and MongoDB. This is a backend app, which provides technical content, stored in DB. Anyone, with the API, can fetch, add, update and delete content to their project. This app is powered by MongoDB Atlas Cloud Cluster service and is deployed under Heroku cloud hosting services.

Live API-demo: https://techcontentapi.herokuapp.com/
